No. 1839 P. 2

January 20, 2010

Texas State University
Department of Health, Physical Education and Recreation

Re: Approval for Survey Placement

To Whom It May Concern:

Southwest Bariatric Surgeons is granting approval for the Department of HPER at Texas State University to place a survey regarding exercise habits and needs in the pre-paperwork for bariatric surgery patients. We will allow the survey to be in place for 6 months to 1 year or until the university researchers have sufficient information.
