Institutional Review Board
Texas State University

Dear Committee Members:

I am writing in support of Dr. Kevin McCurdy's application (2009V5290) for use of human subjects in his research. Dr. McCurdy is a valued member of the faculty in the Department of HPER with a strong history of published strength and conditioning research with human subjects. As a tenure track faculty member of our department he certainly has approval to use all departmental facilities on campus for his research, including any shared space between our department and athletics.

Sincerely,

Duane Knudson, Ph.D.

Chair, Department of HPER
