

Residential Educational Vocational Diagnostics Research

December 29, 2010

Dear Members of the Texas State University IRB:

The purpose of this letter is to express my interest in participating in the project titled **Influence of Language on the Education and Assessment of English Language Learners with Autism Spectrum Disorder**, which has been submitted to you for approval.

I have met with Dr. Lang regarding this proposal and discussed the procedures in detail. If this project is approved I will assist in distributing consent forms, as well as be available to facilitate meetings and referrals of students for participation in this project as described in the IRB summary.

I believe this project will be of benefit to students, their families, and teachers, and I am looking forward to once again collaborating with Dr. Lang.

Sincerely,

A handwritten signature in black ink, appearing to read 'Alonzo Andrews', is written over a horizontal line.
