Dear Dr. McKoy:

I appreciated the briefing you just gave me on your proposed study involving Music Student Teachers' Cross-Cultural Competence. My questions, mostly curiosity more than scrutiny, were answered quite sufficiently. I also accept Dr. Brinckmeyer's opinion as to the worthwhile nature of the study and integrity of methodology, which are outside my own discipline.

Thus I am endorsing the project for voluntary participation by our music education students, as selected appropriately by our faculty.

Best wishes for a successful outcome of the project.

Sincerely yours,

Thomas Clark, D.M.A. Director and Professor
