RE: Ragan Aaron and Kim Rinehart's Research Project

Dear IRB,

I am writing to express my support of the project proposed by Ragan Aaron and Kim Rinehart, entitled "Effects of Art Therapy on the Levels of Anxiety in College Students." This is an independent project that the students have created under my supervision, and both students will be enrolling in my Independent Studies course next semester in order to carry out this project. I will continue to support them as they work through the IRB process and as they ultimately complete their project.

Should you have any additional questions or concerns regarding my involvement in this project, please do not hesitate to contact me via e-mail (nc18@txstate.edu) or by phone (512) 245-8709.

Sincerely,

Assistant Professor

Department of Psychology
